

FETAL NEURO SUMMIT

In collaboration with:  Lis Maternity and Women's Hospital

HALL 2 MASTERCOURSE IN NEUROSONOGRAPHY

Overview

An advanced-level programme designed for practitioners seeking deeper expertise in all aspects of fetal brain development. The faculty team unites high-level national and international experts in fetal neurosonography, fetal MRI, genetic diagnosis, pediatric neurology, and fetal pathology. Present your own studies in our academic session to be discussed by the experts.

DAY 1

Registration

Intro Day 1

The multidisciplinary Fetal Neurology Clinic concept

Early development and genetics of brain patterning

Fetal Brain Anatomy with specimens

The endpoint: 3rd trimester anatomy and common findings

Principles of Fetal Brain MRI

Discussion

Coffee Break

MRI of the fetal midline – normal and abnormal

The corpus callosum discussed with cases

Midline Pathology with specimens

Live scan session from Lis Maternity Hospital/Tel Aviv by

Roe
Birnbaum

Michael
Brusilov

Hadas
Miremburg

Lunch

Advanced differential diagnosis in VM

Fetal Hydrocephalus (with Opus)

Abstracts and Presentations of Neurosonography

FETAL NEURO SUMMIT

In collaboration with:  Lis Maternity and Women's Hospital

HALL 2 MASTERCOURSE IN NEUROSONOGRAPHY

Focuses on:

- Advanced fetal neurosonography techniques
- Fetal MRI principles and application as a complementary tool
- Genetic basis of fetal normal brain development, brain malformations and acquired lesions
- Pathology studies demonstrated with brain specimens
- State-of-the-art approach for complete work-up and management of cases, including counselling
- Ultraphenotyping the growth-restricted fetus

Practical Learning Features:

- Advanced techniques for state-of-the-art performance of NSG and MRI
- Differential diagnosis and the application of different tools for case management
- Ultrasound -MRI - pathology correlations - Hands-on NSG training using OPUS simulators. Pathology studies demonstrated with brain specimens
- State-of-the-art approach for complete work-up and management of cases, including counselling
- Ultraphenotyping the growth-restricted fetus

DAY 2

Work-up on abnormal head measurements

Genetics of Brain Abnormalities

Cortical development and anomalies: US and MRI

Coffee Break

Brain insults and differential diagnosis in neurosonography : the sonographer view (with OPUS)

Brain Insults: the MRI contribution

Fetal Stroke and genetics of brain insults: the pediatric neurologist view

The brain and face in FGR: beyond the placental paradigm

Lunch

Early development of the MBHB

MBHB anomalies: US and MRI

Pathology of MBHB anomalies

Final Q&A and conclusion

FETAL NEURO SUMMIT
